

Name: _____

Sydney Observatory Object Scavenger Hunt

In teams of 3-4, find the solutions to the questions below. You will need to search for the answers - they are all somewhere on Sydney Observatory grounds!

What to find	Solution
What year was Sydney Observatory erected?	
Who was made Signal Master of the Signal Station, and in what year?	
What happened in Millers Point in 1901?	
Find a piece of melted glass in one of our exhibition displays. Which city experienced intense fires on 18th January 2003?	
What was built on this hill to grind grain into flour?	
What colour is the big ball on top of Sydney Observatory? What is it called? What time does it drop?
